Self-Neglect Factsheet

The Basics

- A wide range of behaviour neglecting to care for one’s personal hygiene, health or surroundings and includes behaviour such as hoarding.
- This type of neglect can be either intentional or non-intentional and can result from any mental or physical illness that has an effect on your physical abilities, energy levels, attention or organisation skills or motivation.

Signs and Symptoms

- A refusal or inability to cater for basic needs, including personal hygiene and appropriate clothing.
- Neglecting to seek assistance for medical issues.
- Not attending to living conditions – letting rubbish accumulate in the garden, or dirt to accumulate in the house.
- Hoarding items or animals.
- Lack of essential food, clothing or shelter
- Living in squalid or unsanitary conditions
- Unkempt appearance
